# #ShareSmart

---

# RapeShare

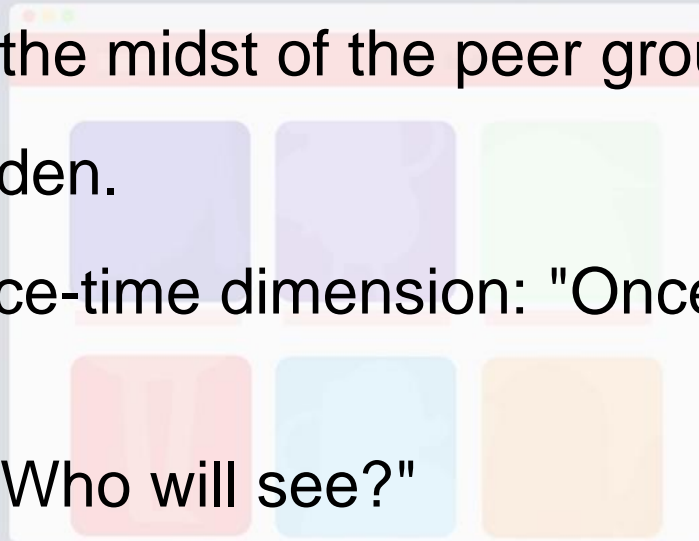

... unwanted distribution of intimate images for the victim

... usually hits in the midst of the peer group

... is a heavy burden.

... blasts the space-time dimension: "Once online - always online."

Fear of victims: "Who will see?"

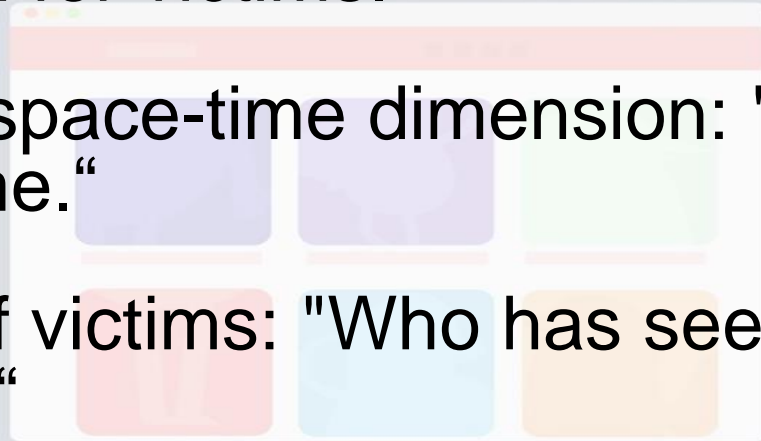

# Child Sexual Abuse Images

distribution of child sexual abuse images – is a heavy burden for victims.

... blasts the space-time dimension: "Once online - always online."

... stirs fear of victims: "Who has seen / who will in the future?"

# 1 in 3 Internet users is

Digital media, social networks and communication platforms have long been part of the sexual abusive strategy of perpetrators.

What does this mean for the protection of children and adolescents from sexual violence?

# You are what you share?

---

# Digital Super Hero?

# Victims need

adults,

who understand.

who remain calm.

who pay attention and intervene.

education and aftercare

# What do we need?

More information on ...

digital media, social networks, online games, etc.

what is going on: distribution of images, sexting, etc.

how to educate parents and caretakers

how to raise these issues with children/adolescents

what to do, if children/adolescents turn to us.

# What do professionals need?

information

networking

training in prevention as well as **intervention**

supervision

technical know how

courage and curiosity

# We also need

---

technology as a means to fight distribution  
and uploading

**Thank you**

**for your attention**
